PROGRESS AND LABOR.

When the herring fishery season is at its height, something like 5,000 or 6,000 miles of nets are set nightly in the North sea.

The largest plow ever built has been successfully used on a Texas ranch. The implement clears a strip of ground seven feet wide.

Iron cloth is largely used today by tailors for making the collars of coats fit properly. It is manufactured by a new process from steel wool and has the appearance of having been woven from horsehair.

Mr. Elorh of Christiania, Norway, has invented a system of treating low grade iron ores in an electric smelter, with graphite as a reducing medium instead of coal. He has been awarded a prize for his invention by the Iron and Steel Institute.

Not a Falsifier Either. "Patching and darning, as usual, are you?" said the caller. "Yes," answered Mrs. Lappling. "I tell Samuel I save him a good deal of money by being so mendacious."—Chicago Tribune.

The man of meditation wastes no time, scatters no energy, misses no opportunity.—Bosant.

DR. KENNEDY'S FAVORITE REMEDY

Pleasant to take, Powerful to cure, And Welcome in every home.

KIDNEY AND LIVER CURE.

Dr. Kennedy's Favorite Remedy is adapted to all ages and both sexes, affording relief in all cases caused by impurity of the blood, such as, Kidney, Bladder and Liver Complaints, Constipation, and weakness resulting from blood. Sufferers for 30 years. Prepared by DR. D. KENNEDY, 609, Broadway, N. Y.

NORTHFIELD.

J. H. Talbot has returned from a two weeks' vacation to Boston and New York city.

M. D. Smith and family returned today from Berlin pond where they have been camping for a few weeks.

Miss Lizzy Doyle is the guest of Mr. and Mrs. H. C. Moseley at their summer cottage on west hill.

Mrs. Fannie Stevens of Montpelier was in town over Sunday.

Mr. W. E. Ems of Crowley Louisiana, vice-president of the Crowley national bank is in town for a few days.

F. W. Denison of St. Albans spent Sunday with his parents at the South village.

Miss Viola C. Steadman of Salem, Mass., was the guest of friends last week.

Leon Smith of the firm of Boyles & Smith was in Boston the first of this week on business.

Miss Kate Wiley of Waltham, Mass., is visiting her cousin, Miss Delia Wiley. Edward Lavellay was taken to Vergennes by Officer Plunkett Friday to serve the remainder of his minority at the Industrial school. Young Lavellay was on probation on a previous charge of stealing and was Thursday found guilty of stealing brass and fittings at the Vermont Black Slate quarry at the South village.

George Simons and Royal Cheney have returned from a week's vacation in Boston.

Dr. and Mrs. B. F. Allen are chaperoning a party of young ladies who are camping at Berlin pond for a week.

Harry Dole, editor of the West Jersey Press, Camden, N. J., is spending his annual vacation with his relatives here.

Carl Dole, clerk in the office of the 1st assistant postmaster general at Washington, is spending a few weeks at the home of Prof. Charles Dole.

The Walter L. Main fashion plate show is billed to show here on Friday the 9th on the Houston meadow north of the village.

A. B. Ricknell, superintendent of the Moody-Almon power plant at Middlesex was a business visitor in town Saturday.

D. B. Howe and family who have been at Mallett's bay camping for the past two weeks have returned home.

William Hassett of the Free Press is spending his vacation with his parents, Mr. and Mrs. D. Hassett.

P. J. Houston is very ill with an attack of appendicitis.

C. A. Plumley and family who have been spending the past month at their camp at North Hero have returned home.

Mr. and Mrs. G. C. Sanborn have gone to Pittsfield for a couple of weeks.

Dr. W. G. Huntley and son, Everett, of Newton Highlands, Mass., are in town for a few days.

Roswell Dewey, who has been quite ill for the past two months is reported somewhat improved.

G. A. Cross was in South Barre Saturday on business.

The members of Co. F, are to give their annual camp dance on Wednesday in Armory hall. Music will be furnished by Whittier's orchestra.

Mrs. Grace Taplin has returned to Boston after a brief stay in town with relatives.

The Ladies of St. Mary's church held a lawn party at the home of Mr. and Mrs. F. J. Dutton on Main street Thursday evening.

Rev. James B. Sargent, pastor of the Congregational church is taking his annual vacation.

Mrs. H. C. Cady and Mrs. J. T. Lance gave a dance party in Guild hall Friday evening in honor of Misses Belle and Agnes Lins of New York city who are spending the summer at their home on Central street.

Mr. William McDonald of New York city spent Sunday with friends in town.

Charles A. Clark has leased the barber shop owned by Walter E. Brown for three years, which has been conducted until recently by William Woodbury. Mr. Clark will operate in the basement of the Northfield house.

Cleveland and Silver have taken the contract to paint the Brown-Stebbins building. This will add very much to the appearance of the square.

F. A. Phillips was called to St. George, N. B., on Friday by the death of his step-mother.

H. L. Kenyon, C. P. Hatch and F. C. Greene were the guests of M. D. Smith at Berlin pond on Friday.

Judge Fred Gregg of San Bernardino, Cal., is visiting his sister, Mrs. Daniel Johnson.

Rev. Walter Dole spent the week with his family in Endfield, N. H., last week.

Mrs. William Jones and children who have been spending the summer months in town have returned to their home in New York city.

George James of Hardwick was in town last week.

Mr. and Mrs. Edwin Worthen of Burlington were at H. E. Reed's several days last week.

Mrs. John Cross of New York city who has been critically ill for the past two months is recovering very rapidly and is expected to come to Northfield next week where they will reside in the future.

H. C. Cady and A. E. Denny were on a business trip in Warren, Watsfield, Brookfield and Granville several days last week.

Mrs. Moses Day has returned to her home in Manchester, N. H., after several weeks in town. Her sister, Miss Kate, who is in poor health has accompanied her for a short stay.

Summer school at Norwich university, for the field work of the engineers of the three upper classes opens on Tuesday evening the 6th.

Miss Vivian Morse of Somerville, Mass., is with her aunt, Miss Alma Huntley for a few weeks.

Frank Dutton was ill several days last week, but has resumed his duties at Cross Brothers.

The Daughters of the G. A. R. held a lawn party at the home of Mrs. Chas. Wright on Pearl street last Wednesday evening.

THE BARRE DAILY TIMES

TUESDAY, AUGUST 6, 1907.

Gainful Occupation.

The man who refuses to carry insurance, enough to tell his wife to learn some gainful occupation while he is living so as to be self-supporting after he is dead. 58th year, National Life Insurance company, Montpelier, Vt. (Mutual).

S. S. Ballard, General Agent, Montpelier, N. B. Ballard, Local Agent, Barre, Vt.

TALK OF THE TOWN.

Masonic charms and pins at L. P. Austin's, "the watch and clock man."

Old gold and silver wanted at F. E. Burr's.

Save money by purchasing that tennis racket now. Big reduction at Averill Music Co.

L. P. Austin sells stone cutters' glasses, all kinds and prices from 20c to \$2.00 per pair.

Mascott's famous ice-cream flavors, coffee, vanilla, chocolate and strawberry, with fresh fruit.

Stone-cutters' glasses, 20c per pair. Leases, per pair, 5c. F. E. Burr & Co., 85 North Main street.

If you want to invest in real estate that will pay 14 per cent. inquire of A. A. Smith, Barre, Vt.

The Limit of Life.

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period that determines its duration seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; careless then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by Red Cross pharmacy. Price 50c.

MARSHFIELD.

During the absence of the pastor, Mrs. Mary L. Hadley, the Congregational church will be closed for two Sabbaths, the 11th and the 18th of August. It was planned to have a supply, but the fear of a breaking out of small pox caused a change of plans, as precaution is better than carelessness. We hope there will be no epidemic, such vigorous preventive measures have been adopted. For three weeks Mrs. Hadley's address will be Tilton, N. H.

NORTH MONTPELIER.

Mr. and Mrs. Charles Little are visiting in Burlington and Boston.

Joe Brothers left Sunday for Woodbury, where he has work on the quarries there.

Arthur Benjamin was in town Sunday. Arthur Stevens was at home over Sunday.

Mrs. George L. Pray is spending two weeks in Boston with her sister, Miss Lillian Kelley.

Mr. and Mrs. Ephie Pray visited in Woodbury one day last week.

Henry Chapin bought a horse of Bob Morrison in Barre last week.

PREMIUM BOOK READY.

State Fair List of Liberal Prizes Sure to Attract Wide Attention.

The premium list of the Vermont State fair has been issued in neat booklet form and is being distributed. Copies may be had by addressing Fred L. Davis, Secretary, White River Junction. The management has been very liberal with premiums, which aggregate \$20,000. Everything raised on the farm has been classified and premiums made. In maple sugar alone \$100 in prizes will be distributed.

The purses for horse racing aggregate \$5,000, and the largest and best strings of horses ever seen in Vermont will be at the fair.

It is expected that the dog show, Dr. Geo. Stephens of White River Junction, superintendent, will be a big feature. All classes are eligible and liberal premiums are offered.

The horticultural department, G. A. Cheney of Sharon superintendent, promises to embrace a large number of entries and as the dates of the fair are October 1, 2 and 3, it will be sufficiently late in the season for big displays of fruits to be made.

The poultry exhibit will be under the superintendence of W. E. Mack of Woodstock and as the premiums are large the number of exhibits is sure to come from a wide range of territory.

The horse department will be in the charge of A. W. Hunter of Windsor. There are classes which embrace all kinds of horses with very liberal premiums. The same liberality extends to the cattle department, which will be in charge of George H. Terrill of Morrisville. Entries already are very large and it may be stated this early that the first state fair will prove to be the greatest cattle show ever in Vermont.

Liberal prizes will be given in the sheep department in charge of W. H. Huntington of North Pomfret.

The swine department will be in charge of A. J. Hoyle of Taftsville and premiums are attractive.

The amount of labor performed at the grounds cannot be understood until one visits the place. Secretary Davis has devoted weeks to the details of construction. Workmen are now building the railroad from White River Junction to the grounds. Transportation facilities will be ample to accommodate the largest crowds.

Residents of White River Junction will open their houses to visitors and ample accommodations are promised.

Women Need

a natural laxative and tonic which troubled with lassitude, depression, nervousness or a general run-down condition of the system.

Nature responds quickly, and regularity is established by the use of

Beecham's Pills

Sold everywhere. In boxes 10c. and 25c.

LAME EVERY MORNING

A Bad Back Is Always Worse in the Morning—Barre People Are Finding Relief.

A back that aches all day and causes discomfort at night is usually worse in the morning. Makes you feel as if you hadn't slept at all.

Can't cure a bad back until you cure the kidneys. Doan's Kidney Pills cure sick kidneys—make you feel better, work better, rest better and sleep better.

Permanent cures in Barre prove the merit of Doan's.

W. W. McAuley of 35 Seminary St., Barre, Vt., says: "I tried all kinds of medicine said to be good for kidney trouble but without getting any noticeable relief. The pain in my left kidney was severe and I could not stoop to pick up anything from the floor without having sharp shooting pains in the small of my back. I was very restless nights and awoke mornings feeling tired and sore all over. Damp weather always made me feel worse and I finally became so bad I could not walk a short distance. It was then that I began using Doan's Kidney Pills sold by E. A. Drown, the druggist, and they helped me from the first, relieving the pain in my back and helping me in every way. I used several boxes and can honestly say that I never found a medicine to help me like Doan's Kidney Pills did. I have told many people what they did for me and know of several who have used them on my recommendation with satisfactory results."

For sale by all dealers. Price 50c. Doan's Kidney Pills, Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

CABOT.

O. D. Mathewson of Barre abs here giving teachers' examinations.

Mrs. W. H. Buchanan and son of Barre were at Charles Howland's visiting, the first of last week.

Samuel E. Goodwin of Amesbury, Mass., who has been visiting Joe Tilton, went to St. Johnsbury Tuesday, where he will visit for two weeks before he returns home.

Rev. E. E. Currier and family have gone to Joe's pond, where they will stay during the month of August at their cottage, "Rest a While."

B. G. Rogers and family and Mr. and Mrs. Dr. Goodwin of Montpelier have gone to Cedar Point cottage at Joe's pond to camp for two weeks.

W. E. Hawes and wife and Matilda Lyon have returned from Joe's pond, where they have been camping for the past three weeks.

F. B. Cate of Barre was here visiting his sister, Mrs. Harry Whittier, last week.

Mr. and Mrs. William Carroll and son of Barre were here on a carriage drive Tuesday.

Frank Paquin is putting on a twenty-fron addition to his cottage at Joe's pond.

Frank Davidson and family are at Cedar Point cottage this week.

S. C. Voodry is moving into the B. J. Lanco house.

Mr. F. E. Darling left Thursday for Eden for a three weeks' stay with his sisters.

F. A. Wales took two new sleighs to St. Johnsbury Saturday. He thinks the sleigh business is commencing rather early this season.

Mr. Albra Fogg will give his illustrated lecture in the town hall, Monday, August 12, under the auspices of the I. O. O. F.

Frank Lyford and son went to Waterbury after a week's stay with Mrs. Josh Kimball, his sister.

On account of the small pox scare in Marshfield, the I. O. O. F. candidate did not come Thursday night.

G. Page and wife of Massachusetts are here visiting his sister, Mrs. Page.

Luther Towne of Barre is here visiting his sister, Mrs. Frank Lyford.

Mr. William Concord, who has been stopping at the Winoski, returned to Boston Friday.

Bert Ainsworth has returned from California country, where he was on a business trip.

Mrs. Fred Brasaw and children of Barre are at Hartwell Stone's visiting.

Phinnie Ladd and wife of Barre were at his mothers, Mrs. Stone, over Sunday.

Florence Inglis returned to Barre Saturday after a two weeks' visit with her cousin, Miss Goldie Hawes.

Mr. and Mrs. A. V. Nelson and Susie are at Joe's pond for two weeks.

Rabbits.

While not fond of the water, rabbits can swim if they are forced to. They have a swimming position all their own and keep their head above water and they keep the head and tail high and dry, while the front part of the body sinks deep in the water.

Wives by Purchase.

Wives are still obtained by purchase in some parts of Russia. In the district of Kamyschin, on the Volga, for example, this is practically the only way in which marriages are brought about. The price of a pretty girl from a well to do family ranges from \$100 to \$200, and in special cases a much higher sum is obtained. In the villages the lowest price is about \$25.

Fire Killed Wood.

Government tests of fire killed timber have demonstrated that this wood is good and should be considered as thoroughly seasoned timber so far as its use is concerned.

The New Orchard.

Spade up the soil around the trees planted last spring and apply a mulch of grass, brakes or meadow hay thickly enough to kill the weeds and hold the moisture, advises American Cultivator. A few stones placed on top will keep the mulch from blowing away. These directions are for trees in sod or rough land. Those in well tilled fields will be sufficiently mulched by the loose soil in which they grow if kept well hoed like any other crop.

SEEDLESS TOMATOES.

Results of Breeding Experiments With This Fruit.

The production of any vegetable novelty always arouses interest among seed growers and gardeners. More or less of this work has been done by the experiment stations. For a number of years breeding experiments with vegetables have been carried on by Professor Halsted and his associates at the New Jersey station. Among the distinct and valuable productions secured in this work is a nearly seedless tomato. As is well known, each fruit of the ordinary tomato contains hundreds of seeds, while the form which Professor Halsted has developed seldom contains more than fifty seeds, and frequently there are not more than five or six and often none.

A Plant of Very Large Size.

This variety has become pretty well established now and has been called the Giant because of the very large size that the plant attains. It originated five or six years ago as a result of a cross of Golden Sunrise upon Dwarf Champion.

The seedlings frequently bear three cotyledons, and the plants are very slow, growing long stemmed, with the foliage open, due to the long internodes and leaves, with the divisions widely separated, which are crinkled and the terminal leaflet blunt pointed. The flower clusters are small, flowers cup shaped, light lemon yellow and the fruits few, medium small, light yellow and nearly seedless. The flesh is particularly fine flavored. The plants, three feet apart each way, covered the ground devoted to the block and flowered up to the killing frosts near Nov. 1.

The type appears to be well fixed. Attempts to cross other sorts upon it have uniformly failed.

Other Varieties Tested.

Seedless fruits have also been produced by Professor Halsted on several varieties and crosses of tomatoes, due probably primarily to nonpollination, with other conditions favorable to the stimulation of fruit production. These crosses were quite uniformly dwarfed in size, many in a cluster being not larger than peas, but solid fleshed and often of good quality. In one instance the fruit had the flavor of the strawberry. Currant crossed upon Stone produced such fruit, likewise Crimson Cushion upon Sumatra. When Crimson Cushion was crossed upon Giant and Magnus many seedless fruits were produced, some of which were large enough for table use. Cuttings taken from plants which produced numerous seedless fruits of this sort when planted out in the garden gave only normal fruits.

THE SILO.

There Are Distinct Advantages to Be Gained From Its Use.

My experience with the silo teaches me that no farmer, large or small, can well afford to be without one. Even those that have but a few head of stock will find it to their advantage to build a small silo. While it cannot be looked upon as the only essential element in successful farming, yet there are a number of distinct advantages to be gained from its use, remarks a writer in Farm and Fireside.

I find that by its use the entire corn crop can be taken from the field at a time when it contains the highest digestible food value and stored away in such condition that all of these valuable food contents will be consumed by the stock. Analysis shows that corn contains the most digestible matter just at its maturity, before it becomes dry and hard; therefore most of this matter is wasted in allowing it to dry out, which is the result of handling it in the usual way.

When the crop is cut and shocked in the field it must stand all kinds of weather, in which case there is a distinct loss, as a portion of it becomes unfit for feeding purposes. Then, again, when hauling the shocked corn from the field there is always a waste of fodder in loading and unloading. This may not seem to amount to much at the time, but in the course of several years it will amount to almost that of an entire crop. By the use of a silo these losses are avoided.

I regard the silo as an economical necessity on any farm, for it is a source from which an abundant supply of cheap, succulent food comes for the winter months and seasons of drought.

Alfalfa For Poultry.

We have written before of the value of alfalfa as a chicken food, but we cannot praise it too often or too highly, and now that all manner of grain feed is so high it is a very good time to feed more alfalfa, suggests a writer in Kansas Farmer. It can be cut in green and fed to the chickens in that state, or it can be cured, then run through a clover cutter and fed to them in small pieces. It has been proved that there are as much protein and other food substances in it as there are in the best of wheat bran, and the cost of it is not a fourth of the price of bran, even if you have to buy it at retail. But if you grow it yourself it is the cheapest feed that can be fed to poultry. A little cornmeal added to cut alfalfa will make a perfect ration for all kinds of chickens.

No Competition.

"What do you consider the most memorable occasion in your career?" "Once, at an evening performance," answered the great tenor, with emotion, "all the boxes were occupied by mutes. I shall never forget that night!"—Minneapolis Tribune.

Her Cooking.

Young Wife—How do you like my cooking? Don't you think I've begun well? Husband—Um—yes, I've often heard that well begun is half done.—Punch.
